

#### **Our Mission**

The Nittany Mountain Biking Association (NMBA) is dedicated to protecting and preserving trails and the land, promoting interest in mountain biking, and providing for the recreational and social interests of our members as well as the general public in Central Pennsylvania.

#### **Our Role in the Community**

Established in 2001, NMBA was incorporated and gained status as a 501(c)(3) non-profit organization in 2011. NMBA is currently one of the primary trail maintenance, trail work, and trail building volunteer bases for the multi-use trail system in Rothrock State Forest. Rothrock State Forest contains over 100 miles of trail open to mountain biking with numerous organized rides held annually.

#### **How will funds raised during Centre Gives benefit your organization?**

The funds raised during the Centre Gives benefit will go towards the maintenance, design, and development of trail in Rothrock State Forest. Existing trail needs to be maintained on a continual basis to keep the trail clear from debris and overgrowth. Proposed new trail projects include the development of network trail in the Musser Gap area and the Whipple Dam area.
